

# POWERFUL

## Choices for Insulation Removal or Recycling

### Insul-Vac & Versa-Vac

Want to make short work of messy, time-consuming insulation removal jobs? Insul-Vac and Versa-Vac insulation removal vacuums are designed for fast, profitable removal of fire, smoke and water damaged insulation from attics, sidewalls and crawl spaces.

With these high performance units on the job, you'll handle bulky materials with ease. Blown-in insulation and plaster chips - wet or dry - are removed quickly and efficiently. Material intended for recycling can be conveyed directly to your spraying machine for reuse. Waste material can be discharged directly into 75 cubic foot disposable collection bags or directly into a Dumpster® receptacle.

### Take Advantage Of This Growing Market

Need help making your decision? We are uniquely qualified to help you profit from the growing demand for insulation removal services. Whether you're an experienced contractor expanding your service offerings or an entrepreneur looking to start a business with great growth potential, we have all the equipment and accessories you need.

### Features and Benefits

- ▲ Heavy gauge, welded steel construction for strength and long life
- ▲ Textured, powder coated finish for lasting protection
- ▲ Heavy duty fan wheel for years of smooth, dependable operation
- ▲ Dynamically balanced, abrasion resistant steel fan wheel
- ▲ Superb handling of wet and dry materials for excellent all-around performance
- ▲ 6" inlet for greater productivity
- ▲ Heavy duty wheels and handles for easy maneuverability
- ▲ Easy operation for reduced labor time and increased profitability
