

MEYER SERIES 1400

INSULATION BLOWING MACHINE

The Meyer Series 1400 is designed with simplicity and efficiency in mind, offering easy operation and minimal downtime. Meyer's exclusive quick-change sealstrip system allows you to replace sealstrips in the feeder in just a few minutes. The 4-speed transmission provides flexible hopper speed control, while the electrically operated material slide gate is conveniently panel-mounted for easy adjustment. All gauges and controls are easily accessible without having to remove protective safety guards.
